

How To Determine Your Hat Size

Use a tape measure (or a piece of string that you can measure against a ruler) to determine the circumference of your head. Place the tape around your head about 1/8" or 5mm above your ear, across the mid-forehead, and completely around your head. Hold the tape firmly, but not too tightly, measure where the hat will naturally sit.

If your measurement falls between sizes, choose the next largest size.

How Your Hat Should Fit

Unlike some other brands that recommend sizing up due to shrinkage, Stetson hats are made to hold their size. Your Stetson should feel firm when new and will naturally mould to the shape of your head with wear, creating a personalised fit over time.

Hat Size Chart

	Small		Medium		Large		X-Large		2XL	
HAT SIZE	6 3/4	6 7/8	7	7 1/8	7 1/4	7 3/8	7 1/2	7 5/8	7 3/4	7 7/8
